Question and Answer Notes

1. Write important information from class or a reading assignment on the left side under Answers.
2. On the right side under Questions, write a question for each item in the answer column.
3. Cover the answer column with a folded piece of paper and ask yourself each question from the questions column. Slide the folded paper down to show the correct answer one question at a time.
4. Put a check beside each question you answered correctly.
5. If you did not get the correct answer, read the question and say the answer three times.
6. Repeat steps 1-4 until you can answer all questions correctly.
7. Put the notes aside for a while and then repeat steps 1-5 using an X to mark items you answered correctly. Study the notes several times before a test or assignment.
